

# NP9 experiments overview

## Probe location

NP9 Probe Location

*Additional images can be found in B:\space\_managed\_data\ashley\_anatomy\NP9*

## Experiment notes

- Option 1 probe
- This experiment was very drifty, but seems manageable. We've only marked clusters that we could track across time as "good".
- Five different types of stimuli (no "blank" trials), see [+Description of .mat files](#) for details on what each # stimulus is

## Experiments overview:

experiment	# behavioral trials	# stimuli	conditions	notes
NP9_000	34	5	6	
NP9_001	33	5	6	

NP9_002	27	5	6	11/12/18: sync.mat file was incorrect, it was just regenerated and shared
NP9_003	43	5	6	
NP9_004	59	5	6	<i>this file has multiple stops and starts, currently it's not prepped for sharing</i>
NP9_005	39	5	6	

## Times for concatenated stop/start experiments

expt	off	on	notes
NP9_001	3238.07 9	3304.94 4	
NP9_004
